

POWDER COATING

BENEFITS OF POWDER COATING

- Certified powder coating applicator
- Durable and weather resilient
 - Polyester powder coating creates a beautiful barrier that is less likely to scratch or fade.
 - Weather-resistant finish resists damage from harmful UV and ozone rays.
- Custom design flexibility
 - In addition to the 3 standard colors (Aldora White, Flat Black, Bermuda Bronze), Aldora's powder coating line can custom match to any color to ensure maximum design flexibility.
- Significantly more environmentally friendly than liquid coating methods
 - Compared to other methods, powder coating doesn't use harsh chemicals and creates very little waste.
 - Powder coating withstands the test of time against the harsh coastal conditions

OVERALL DESIGN

- Match the framing for windows and doors throughout your entire home project
- VistaView can take on large custom projects, up to 30'

IN-HOUSE MANUFACTURING

- Your client's design specifications are matched with powder coating, minimizing overall lead time.
- The entire process is completed in a fraction of the competitors' average lead time because Aldora is the top choice of end-to-end fabrication.
- Our powder coating is tough and long-lasting, make it the perfect choice for architectural products.
